

INNOVATION CHALLENGE “LUCIO MASTROBERARDINO”**NEW TECNOLOGY SIMEI 2017****GARBELLOTTO SPA - PRECISION CASKS & BARRIQUES MANUFACTURED WITH DTS-DIDGITAL CONTROL TOASTING**

These casks and barriques are bent and toasted with a pellet burner controlled by an automated system for the management of time-temperature charts. The control of the toasting phase can considerably modify the aromatic composition of wood and the effects on the quality of finished wine.
